

## WARRANTY

Space Craft Manufacturing, Inc. offers a one year limited warranty on components manufactured by Space Craft Manufacturing; a 10 year warranty on the trailer frame and a lifetime warranty on the fiberglass roof. This warranty excludes any damage caused by neglect, vandalism, abuse or normal maintenance.

We would prefer that all warranty work is done here at our shop. However, we understand that is sometimes not feasible.

Space Craft Manufacturing, Inc. will reimburse for warranty work done by other technicians **only under the following conditions:** Space Craft Manufacturing, Inc. must be notified of the repair(s) which need to be made, prior to the repair. Space Craft Manufacturing, Inc. must approve the repair(s).

Space Craft will not reimburse for the following: Service Call or "Trip charges", freight for parts to the customer or to the authorized service center, freight for parts coming back to us for repair or replacement.

Space Craft does not assume responsibility for loss of time, inconvenience, or other consequential damage. Therefore, expenses for gasoline, telephone, travel, lodging, loss or damage to personal property, or loss of revenue is not reimbursable.

In the event repairs are made by someone other than one of our technicians, we do suggest the technician doing the repair call in to speak with one of our technicians. We may be able to explain how something was done and save time and labor costs.

Other components such as appliances, water pumps, flooring, window shades, etc., in your unit which are manufactured by other companies will fall under the manufacturer's warranty. Owner's manuals and warranty cards containing repair information are enclosed in your notebook. If you have a problem with an item for which there is no manual enclosed, please call us and we would be happy to assist you.
